For Immediate Release:

Waterloo Regional Kart Club Race 5 Report

With 5 races complete the season championship point picture is already starting to take shape. In 5 of the 6 classes it was the point leader winning the feature race. But in every class the winner had their work cut out for them with lots of close racing through out the field.

The race day sponsor was CMS Electric and the Mantel family. The Mantel family not only supports the club through their generous sponsorship but also by having 4 family members' race, Taylor, Travis, Kelsey, and Cody. For over 20 years CMS Electric has been providing electrical contracting services to the residents, businesses and farmers in the Waterdown, and Flamborough area. As the owner of CMS Electric, Chuck has grown the business to now employ 4 Electricians, and 2 apprentices. Business owner Chuck Mantel recently learned that the Ontario Government was introducing a new program called Micro FIT to encourage the generation of power using energy from the sun. CMS was quick to get involved in the program. With a number of systems installed, Chuck and his staff have become experts at helping people get involved in the program.

The feature race winners were:
