## **Track Rental Guidelines for Motorized Vehicles.**

- Contact Flamboro Speedway Management to schedule times and verify track availability.
  
- Upon entering the facility contact track staff to verify times, sign the wavier, and pay the appropriate fees.
  
- Verify the racing surface is clear of obstructions before use.
  
- Use caution entering and exiting the racing surface.
  
- Never enter the track or pull out in front of an oncoming vehicle.
  
- Use appropriate waste cans for garbage. Any race parts, tires, oil, etc does not go in the Flamboro Speedway garbage cans – take it all home.
  
- Be courteous of track time and others needs.
  
- Leave your pit area in the same condition you found it.
- For everyone's safety please ensure all new drivers are fully aware of the track and its layout. (Course/direction/coming on and off track.) NEVER put a non racer or new racer out on the track without walking the race course with them first ensuring they know the track and direction.
