Technical Bulletin 2023-01

Front Axle

Subject: Front Axle Spindle Requirements

Effective: May 23, 2023

17. Axles and Hubs

17.3 Front Axle

Revised to state that it is no longer permitted to utilize self locking nuts "only" on the front axle spindles. Rule 17.3 revised to read as follows:

17.3 Front Axle: Spindle nuts must be c-clipped, snap-ringed, wired or cotter-keyed. Front axle spindles must be machined to accept c-clips or snap rings or have a hole drilled for wire or cotter-pins.

Regards,

The 2023 WRKC Board of Directors
